

China, China, China, China!

**Stop pointing fingers at China and START
pointing fingers at the JEWS - -**

who CONTROL China!

Lorraine Day, M.D.

Everyone is doing EXACTLY what the Jews want them to do – pointing their fingers at China, accusing the laboratory in Wuhan of making the Covid 19 virus as biological warfare!”

But, everyone has missed the point – which is - that the U.S. government, run by the Jews, including Fauci, have been FUNDING the Wuhan lab and all its evil!

The Illuminati Jews, led by the Jewish Rothschilds, turned China COMMUNIST in 1949, so the Jews could 1) decimate the economy of the U.S. by sending all of American jobs to China, where the Chinese work for slave-labor wages, and 2) hide their evil doings and then BLAME the Chinese, if the Jews got caught!

This is exactly what they are doing right now!

Xi Jinping is the President of the People’s Republic of China but he is under total control of the Jewish Rothschilds who run the world, the same Rothschilds who shut down the whole world in a week’s time for a totally FAKE “pandemic.” And no matter what they promise, we will NEVER return to “normal.”

So, everyone should quit pointing their finger at China and start pointing at the Jewish Rothschilds and their Jewish Illuminati, those who are responsible for virtually ALL the

trouble in the world – those who want Christians, and ALL Gentiles exterminated from the face of the earth.

The Pentagon Gave MILLIONS to Wuhan Lab-Connected Group with Ties to Dr. Anthony Fauci

The Pentagon “funneled” \$39 million to EcoHealth Alliance, the Fauci-connected “charity” group that disbursed research funding to the Wuhan Institute for Virology. The lab is believed to be a plausible source of the COVID-19 outbreak that has killed millions worldwide, implicating a high-stakes cover-up by communist China whose implications are only now unfolding.

The data that show the Department of Defense and other U.S. agencies provided funds to the EcoHealth Alliance group was obtained by the Daily Mail and published on Friday.

“The Pentagon gave \$39 million to a charity that funded controversial [coronavirus](#) research at a Chinese lab accused of being the source for Covid-19, federal data reveals,” the [report](#) said.

“The news comes as the charity’s chief, British-born scientist Dr. Peter Daszak, was exposed in an alleged conflict of interest and back-room campaign to discredit lab leak theories.”

The Daily Mail notes the uncovered funding of EcoHealth Alliance from the U.S. government.

“A political storm broke when former president Donald Trump canceled a \$3.7 million grant to the charity last year amid claims that Covid-19 was created in, or leaked from, the Wuhan lab funded by EHA,” the report continued.

“But federal grant data assembled by independent researchers shows that the charity has received more than \$123 million from the government – from 2017 to 2020 – and that one of its biggest funders is the Department of Defense, funneling almost \$39 million to the organization since 2013,” it went on.

“Exactly how much of that money went toward research at the Wuhan Institute of Virology is unknown,” the report added. A sample of the funding disclosures is provided below:

“Grants from the Pentagon included \$6,491,025 from the Defense Threat Reduction Agency (DTRA) from 2017 to 2020 with the description: ‘Understanding the risk of bat-borne zoonotic disease emergence in Western Asia.’”

The grant funding further shows the extensive backing of weapons research in a totalitarian nation that defense analysts should consider a mortal threat to the United States and the international community at-large.

“EHA also received \$64.7 million from the US Agency for International Development (USAID), \$13 million from Health and Human Services, which includes the National Institutes of Health and Centers for Disease Control, \$2.3 million from the Department of Homeland Security, and \$2.6 million from the National Science Foundation,” the report said, while noting that the figure of \$3.4 million is far lower than the estimated figure earlier provided to Congress.

On Friday, Judicial Watch [obtained](#) via a FOIA request internal emails and documents that establish that U.S. funding of the Wuhan laboratory was substantially more than what was disclosed to Congress.
