Communist Tedros Ghebreyesus, Director of the World Health Organization (and not even a physician) in his little panties and bra: DISGUSTING!

John Podesta (Hillary Clinton's Campaign manager) and Valerie Jarrett: These People are SICK and EVIL (There is also evidence that both Podesta and Hillary are Pedophiles!)

The year 1913 was probably the most important year in American history.

- Federal Reserve Founded
- Income Tax created
- Henry Ford invents the “assembly line”
- Rockefeller Foundation founded
- ADL founded
- First Aliyah to Israel
- 17th Amendment takes America from a republic to a democracy

No wonder a world war broke out the next year, the plan had been initiated.

TORONTO – In a prestigious medical journal, doctors from Toronto's Hospital for Sick Children have laid out policies and procedures for administering medically assisted death to children, including scenarios where the parents would not be informed until after the child dies.

Theresa Tam (譚咏詩; born a man in 1965) was appointed to the position on June 26 2016 to Chief Public Health Officer of Canada and head of the Public Health Agency of Canada (PHAC). Tam acted as Chief Public Health Officer of Canada after the retirement of Gregory Taylor in December 2016 until her formal appointment by Canadian Minister of Health Jane Philpott in 2017. The above is from an old Wikipedia post on him that has since been updated not to reveal that Dr. Tam is biologically a male who suffers from gender dysphoria. Dr Teresa Tam is a Hong Kong native and Chinese nationalist and now Canada's top (Quack Quack) Dr. (with possible links to the CCP) may just be promoting the Mark of the Beast? Is there any wonder she suffers from Gender dysphoria? This is who Prime Minister Justin Trudeau and the Premiers are listening to!!!
